

EARTH DAY : Sunday, April 22

SAVE OUR WATER

Take the Tap Back

“Kicking” the bottle water is a step in the right direction to help save the world’s water.

This is an easy yet effective way to live more simply. In the United States, over a half billion bottles of water are bought every week – enough to circle the globe more than 5 times. It’s a waste of energy and resources. Over 70% of them end up in landfills where it can take 700 YEARS for them to decompose. Don’t trash the planet; instead, buy a reusable bottle and go to the water tap!
